Elena Tropanets

Junior front-end developer

elenatrr.github.io/portfolio/
elenatropanets@gmail.com
Kyiv, Ukraine

I'm 22 years old student with a passion for coding. I work hard every day as I believe that no matter how talented I am, the talent will fail me if I am not skilled. I enjoy working closely with team members and I am ready to apply my passion for coding to a progressive and motivated engineering team to develop quality solutions together.
